WORK EXPERIENCE

Software Developer at Isourse Technologies — July 2023 - May 2024

- Developed various websites using React.js, Node.js, Express.js, and MongoDB, ensuring optimal performance and scalability
- Engaged directly with clients to gather requirements and deliver customized solutions that met their needs effectively
- Mentored new team members and conducted code reviews to uphold high standards and code quality
- Utilized expertise in MERN stack, Bootstrap, Material-UI, and Redux Toolkit to build efficient and scalable applications

PROJECTS

Unified Onboarding | *React, Bootstrap*

- Developed a React and Bootstrap-based application to streamline the onboarding process for Blinkit store and warehouse staff
- Implemented dynamic tabular displays with advanced search and customizable columns, enhancing data accessibility and user experience
- Engineered a secure role-based authentication system, distinguishing administrative and managerial privileges for streamlined access control

Xpressbees (BusyBees Logistics Solutions Pvt. Ltd.) | *React, Redux, Bootstrap*

- Developed XpressBees Web Application using React.js, Bootstrap, and Redux Toolkit for streamlined API integration, resulting in a dynamic, mobile-friendly interface with reusable components
- Enhanced user engagement through Google Analytics, SEO optimizations, and tailored hooks for multilingual support, fortified by Jest implementation for robust testing and sustained code integrity

Outmazed Design | *React, Node, ,Express*

- Utilized React to bootstrap the web app, incorporating seamless CSS and JavaScript transitions for enhanced user experience and responsive visual feedback
- Collaborated on design for consistent, clean animations and appearance. Added job application and contact features, enabling easy email communication using Node.js

Social Media App | *React, Node, MongoDB ,Express* — *Source Code*

- Developed robust social media application using MERN stack with features like user authentication, likes, comments, and friend management for a seamless user experience
- Engineered scalable social media architectures, optimizing performance with techniques like database indexing, efficient caching, and load balancing

TECHNICAL SKILLS

C++ | Javascript | ReactJS | NodeJS | ExpressJS | MongoDB | Redux | Bootstrap | MUI | Git | RestAPI

ACHIEVEMENTS / CERTIFICATES

- 5 * Coder in Hackerrank Problem Solving using C++
- CCNAv7: Introduction to Networks
- HTML, CSS, and Javascript for Web Developers

EDUCATION

ABES Engineering College (AKTU) - 72.1% till 8th Semester — Ghaziabad, UP
Bachelor of Technology in Computer Engineering and Information Technology — *2019 - 2023*

Sunbeam School Lahartara (CBSE) - 78% — Varanasi, UP
12th — *2018*
